Compensation Lawyer

‡ Certified Circuit Court Mediator

I am a trial lawyer from Jacksonville, Florida. My practice, and the practices of the attorneys at my law firm, focus on personal injury and wrongful death cases. We specialize in those cases involving catastrophic injuries or death, such as commercial trucking cases. In such cases, having the right experts can often be the difference between success and failure.

I recently had the privilege of working with Dr. David H. Madoff in a case filed against a commercial trucking company. One of the allegations in the case was that the driver of the case had uncontrolled diabetes which contributed to him falling asleep behind the wheel of his truck immediately before the accident. Dr. Madoff was a crucial part of our trial team. In the early stages of the case, he helped to educate us regarding the medical issues surrounding the driver's diabetes. He then did a thorough analysis, issued an in-depth report, and provided testimony that was instrumental in settling the case for an amount that was favorable for our client.

It is my opinion that Dr. Madoff possesses all of the characteristics that make an excellent expert witness. His analysis is thorough and medically sound. He is accessible to the attorneys hiring him. He is flexible in scheduling deposition and trial testimony. He is articulate during direct examination, and holds his ground well under cross-examination. I would wholeheartedly recommend Dr. Madoff to any attorneys needing an expert witness in the field of endocrinology.
